

# MESH CURTAIN DOOR

This heavy-duty fly mesh strip curtain is designed to give protection in hygiene sensitive areas at a cost-effective price. It comes complete with snap-on suspension plates that allows for ease of fitting or for replacing individual strips. Reinforced edges for safety and weighted end pockets ensure minimum movement while giving full access coupled with safe visibility. The top rail is of stainless steel construction and comes in handy one-metre lengths with universal fixings for ease of use.

**A COST EFFECTIVE FLYSCREEN SYSTEM  
THAT CLEANS UP THE HYGIENE LEGISLATION**

## MESH CURTAIN DOOR

|                      |   |
|----------------------|---|
| <u>How they work</u> | Each strip is held securely to a polycarbonate plate which in turn is hooked onto a stainless steel track. The weighted strips hang down to form a flexible curtain that can be passed through, yet fall back into place.   |
| <u>Suitability</u>   | <p>A cost effective curtain for doorway openings. Use it where it is not convenient to site a screen door.</p> <p>Individual strips can be integrated with plastic strip curtains to gain valuable ventilation.</p> <p>Replacement strips are easily obtainable (see price list) and require only the polycarbonate plate fixing to the new strip to restore the full curtain.</p> <p>This curtain is not suitable for retaining heat and is not effective in windy areas.</p> <p>Pedestrian use only. Not suitable for doorways using wheeled conveyances.</p> |
| <u>Removal</u>       | <p>The stainless steel track is permanent.</p> <p>Strips can be unhooked for cleaning or replacement.</p>   |
| <u>Maintenance</u>   | <p>The stainless steel track requires no maintenance.</p> <p>To clean strips, remove and immerse in soapy water, shake off excess water and rehang.</p>   |
| <u>Technical</u>     | <p>Polyester – 48 x 32 weave, black, ventilation 73%.</p> <p>Standard sizes up to 200mm wide x 2.4 drop.</p> <p>Available up to 3.4 drop.</p>   |
| <u>Guarantee</u>     | 12 months on all workmanship under normal wear and tear.  |
