### PRICE LIST FOR DOORS FROM JANUARY 2005

PRICES QUOTED ARE INCLUSIVE OF FITTING ON MAINLAND UK  
FOR SUPPLY ONLY DOORS, LESS 30% + DELIVERY + VAT

#### LIGHTWEIGHT SCREEN DOOR (SUPPLY ONLY) £115.00

Lightweight aluminium framed door; powder coated white, with fibre mesh to the top and bottom, divided by a 125mm-push plate set at the centre, and a kick plate at the bottom. Ideal for doorways on domestic kitchens or conservatories, this door is kept shut with magnetic catches.

#### STANDARD SCREEN DOOR £247.00

A heavier aluminium framed door; powder coated white, with fibre mesh to the top and bottom, divided by a 125mm-push plate set at the centre, and a kick plate at the bottom. This door comes complete with an automatic door closure and floor sealing bristle. Designed for canteens, works kitchens or the rear of shops with average traffic.

#### HEAVY DUTY SCREEN DOOR £360.00

A heavy framed aluminium door, powder coated white, and fitted with our strong, yet, decorative security grill incorporated within the door. This door is recommended for industrial applications, where deliveries are being made, or a great deal of traffic is passing through.

#### FIRE DOOR / SCREEN DOOR (Including Aluminium Sub-frame) £461.00

By using our specially constructed aluminium sub-frame this enables the fitment of our heavy-duty screen door over existing fire exit points. To meet fire regulation requirements, our heavy duty door is fitted on double action hinges and is designed to strike the panic bolt on the fire door and push it open, i.e. the screen door opening through the fire door in the same direction. This therefore offers ventilation at key locations, but still retains a quick and easy exit from an emergency point.
